Have you been looking to learn more about Oregon’s education system? We invite you to join us at an Empowered Hour in 2018!

Empowered Hours are casual gatherings where you can learn about the most pressing issues in education, and meaningful opportunities for effecting change. We bring the experts to you in a series of intimate and informal happy hour conversations focused on topics that are tailored to your interest. We invite you to sip, converse, and learn about innovative ideas that are changing the way we teach and support youth.
