

Supporting Language and Literacy Development in Preschool Classrooms Through Effective Teacher-Child Interactions

April 22, 2010
8:30 am–4:30 pm

Hilton Garden Inn
3720 N. Reserve Street, Missoula, MT

REL Northwest, operated by Education Northwest, invites you to join us at a special forum on the latest findings about early literacy by the National Center for Research on Early Childhood Education (NCRECE). The presentation will focus on how to support language and literacy development in preschool classrooms through three broad categories of effective teacher-student interactions: emotional support, classroom organization, and instructional support

The event features NCRECE researchers Dr. Bridget Hamre and Dr. Jennifer LoCasale-Crouch, whose work is funded by the Institute of Education Sciences. Participants will have a chance to discuss the research findings with the presenters, as well as to explore with colleagues the challenges and opportunities to implement best practices.

This event is designed for early childhood program administrators, trainers, advocates, leaders, and policymakers.

To register for the event, which is offered free of charge, please go to www.educationnorthwest.org/events or call Joanne Lau at 503-275-9596 or e-mail Joanne.Lau@educationnorthwest.org
